

**UPDATED NOTIFICATION OF INTENT TO INITIATE CLOSURE  
PLANT WANSLEY CCR SURFACE IMPOUNDMENT AP-1  
GEORGIA POWER COMPANY  
HEARD AND CARROLL COUNTIES, GEORGIA**

Georgia Power Company (GPC) intends to close the CCR surface impoundment known as AP-1 located at Plant Wansley near Carrollton in Heard and Carroll Counties, Georgia. The surface impoundment is closing under the requirements of 391-3-4-.10(7)(b) [40 C.F.R. 257.101(b)(1)]. Closure of the surface impoundment will be conducted under 391-3-4-.10(7) [40 C.F.R. 257.102(c)], *closure by removal of CCR*. The closure will be completed by removing all CCR and CCR laden soils in the CCR surface impoundment. CCR and CCR laden soils will be disposed of in a landfill permitted to accept such materials or transported offsite for beneficial use. Free liquids within the surface impoundment will be routed through an on-site water treatment system before being directed to the facility's National Pollution Discharge Elimination System (NPDES) permitted outfall. The outfall is monitored in compliance with the facility's NPDES permit.

By signature below, certification is made that the closure of Plant Wansley AP-1 will be completed by removal of all CCR and CCR laden soils in the surface impoundment in accordance with the requirements of requirements of §257.102(c).
